

OVERTONE SINGING

WORKSHOP

led by Risha

Overtone singing is a stunning technique that brings us into the depth of our voices, enriches our vocal expression and our listening.

Overtones are always in our voice, we constantly use them while we are talking or singing, we are just not aware of it.

This workshop will focus on hearing and singing overtones, deepening our awareness of the fullness and the colours of each and every sound and of our own voice.

Saturday May 20th, 18.00–20.00, in Vale da Vinha (btw. São Martinho das Amoreiras and Corte Malhão)

Price: 10–15 EUR

Registration & info: Risha, +41795230406

Suitable for beginners and intermediates

Risha has been singing overtones since 2010, learning mainly from the vocal artists Wolfgang Saus and Christian Zehnder. She is music teacher and singer with a particular love for traditional vocal music from different parts of the world.
